

MILITIA ON WAY TO CROTON DAM

Rioting Italian Laborers
Have Been Terrorizing
That Neighborhood.

STRIKERS ALL ARMED

The Troops Number 160 In-
fantry and 350 Cavalry---
Will Arrive This P. M.

STERN RESISTANCE IS LIKELY

Mount Vernon, N. Y., April 16.—[Special Telegram]—Six hundred militiamen moved at eleven o'clock this morning to Croton Dam where rioting Italian laborers have been terrorizing the neighborhood. The troops will arrive on the scene this afternoon.

Most of the Force Cavalry

New York, April 16.—[Special Telegram]—Gen. Roe announced today that he had received a demand from Sheriff Malloy of Westchester county to call out 500 troops to go immediately to the scene of the Italian laborers' strike at the Croton dam.

Consequently Gen. Roe has decided to order out the Fourth separate company of Yankees, the Eleventh separate company of Mount Vernon; Squadron A of New York, and Troop C of Brooklyn.

Gen. Roe gave his reason for ordering out so many cavalry and so few infantry that there are more than six miles of territory to cover. The troops will number 160 infantry and 350 cavalry.

All the Strikers are Armed.

Croton Landing, N. Y., April 16.—Nearly 300 armed deputies are guarding the Cornell dam works. The striking Italian laborers are behaving themselves excellently, but underneath their assumed quiet there is stubborn resolve not to go back to work nor let any outsiders take their places until the contractors agree to pay the increase of wages demanded. All the strikers are armed.

The news that the troops had been ordered out has greatly excited the strikers. The leader, however, says they will resist the contractors, troops or no troops.

Strikers are Very Ugly

New York, April 16.—[Special Telegram]—Reports from Croton Dam indicate that the strikers are in an ugly frame of mind. They declare they will resist the soldiers. They are armed with pistols, clubs and carbine and hold the hills near the dam. The statement that they will blow up the old dam and cut off a portion of New York's water supply is denied by Rettella, the strikers' leader, who says that every attempt of the contractors to resume the work with strange men will be fought until the troops arrive.

It is believed that a decision was reached to withdraw the Transvaal forces to the north of Vet river, preparatory to a retirement across the Vaal River, if hard pressed, leaving the Free Staters to their own resources.

The freight cars crowded upon the overturned engine and instantly suffocated and crushed to death in the cab both engineer and fireman, who had resolutely stuck to their posts.

SHIPPERS MUST PAY THE WAR TAX

United States Supreme Court Renders a
Decision in Favor of Adams
Express Co.

Washington, April 16.—[Special Cablegram]—The United States supreme court today held in two cases that the Adams express company has the right to require shippers to pay war tax stamp. The decision covers the entire subject.

It holds there is nothing in the war tax which prevents the interests taxed from shifting the burden if the prices charged the shipper are not rendered unjust and unreasonable.

Naval Bill Is Up.

Washington, April 16.—[Special Telegram]—The naval appropriation bill carrying over sixty-one million dollars, the largest amount ever appropriated was taken up by the house today. MATTER OF HEART NOT OF INTELLECT

Rev. Dr. Parkhurst Joins in the Revolt
Against the Set Presby-
terian Creed.

New York, April 16.—Rev. Charles H. Parkhurst, pastor of the Madison Square Presbyterian church, has joined in the revolt against the set creed of Presbyterianism. Through the medium of his Easter sermon he placed himself with those who declare that the Westminster confession of faith is no longer a fit guide to true Christianity.

Dr. Parkhurst takes the ground that Christianity is a matter of the heart and not of the intellect; that theology is not Christianity; that Christ was not a follower or creator of any theological system, and that a simple creed, freed from dogma, is all that is really necessary for the practice of the higher life.

Dr. Parkhurst is now in the list with Professor David Swing, Dr. Briggs, Dr. Hills, Dr. McGiffert and Dr. Gregg, eminent clergymen who have broken away from orthodoxy and who will have no more of the confession of faith. His defection will come as a shock to Dr. Patton of Princeton college; Dr. Fox, secretary of the American Missionary society; Dr. Birch and the others of the clergy and laity who believe that to desert any part of the principle of foreordination or predestination is to enter the ranks of the heretics.

SPANISH MINISTER MADE VERY ANGRY

The Duke D'Arcos Resents an Invitation
to Attend Chicago's Dewey
Day Celebration.

Chicago, April 16.—The Dewey reception committee is threatened with an international complication. In sending out the invitations to the foreign diplomatic corps in Washington to attend the Dewey Day celebration on May 1, the Spanish minister, the Duc de Arcos was not overlooked and together with all the other representatives of foreign countries the Spanish minister found himself invited to attend an event which commemorated the annihilation of Spanish power in the Western hemisphere.

The duke considered the invitation an insult to the Spanish nation and, in a letter to the Dewey committee, he has declined to be a guest of the city of Chicago. The letter to the committee, it is said, is couched in diplomatic language, but it does not disguise the minister's feelings. He feels that he has been made the medium through which an insult was offered to his country, and Chicago will have to celebrate Dewey Day without the Duc de Arcos.

BIG CROWDS VISIT PARIS EXPOSITION

FIRST DAY AFTER OPENING A
GREAT SUCCESS.

Old Paris, the Foreign Pavilions and the Moving Sidewalk Are the Most Popular Attractions—Cordial Telegram of Congratulation Sent by President McKinley.

Paris, April 16.—Great crowds thronged the exposition all day yesterday.

Vieux Paris, the foreign pavilions and the moving sidewalk were the most popular attractions to the masses.

Telegrams of congratulations were received in France from many of the principal cities and statesmen of Europe and other continents.

The minister of commerce of Russia, sent a long telegram, which Minister Millerand acknowledged.

Cordial Message From McKinley

One of the most cordial congratulations was that of President McKinley, who cabled President Loubet in the name of the American people and their government to congratulate the French republic on the happy inauguration of the great enterprise, the mission of which was to more closely draw together all countries for mutual benefit.

President Loubet replied thanking President McKinley.

The annex of Vincennes was opened this morning without official inauguration, and is one of the finest of the exhibits, where American machines are displayed.

Menelek to Visit Anna Gould

The most peculiar and signal honor ever conferred upon an American will be the visit of the Emperor Menelek of Abyssinia to the Countess de Castellane formerly Anna Gould of New York.

The Emperor will visit the Paris exposition as a guest of the French nation. In his case, as in that of several other foreign potentates, the French government will assign the duty of entertaining to some citizen of wealth and high social position. It has been decided that the honor of entertaining Menelek and his wife, the Empress Taitou, shall devolve upon the Count and Countess de Castellane.

Menelek is the Negus Negusti, or King of Kings. His country is full of second-rate Fuggues, who command his troops and do his bidding. He is the only African Monarch who has defeated European troops. His victims were the Italians, and he defeated them so thoroughly that in one battle out of 21,000 Italians only 1,000 escaped. All the rest were either killed or taken prisoners.

Bought No Easter Bonnets.

Cleveland, Ohio, April 16.—There were not half a dozen new Easter bonnets at the East Madison Avenue Presbyterian church. The absence of the spring bonnets was due to an act of self-sacrifice that probably has few equals in the country. By doing without new bonnets, saving the sums given them by their husbands for new headgear, the women of the church had netted \$1,600—enough to make it certain that the mortgage, \$2,000 in all, would be paid this week.

First Trip of the Tunisian.

St. Johns, N. F., April 16.—The new Allan liner Tunisian, 10,500 tons, arrived at Halifax from Liverpool. Severe westerly gales were encountered, but they did not materially retard the speed of the ship, which the passengers pronounce a splendid sea boat. One thousand passengers were landed at Halifax, including 250 cabin passengers.

CULTIVATE BOOMS FOR POPULAR MEN

POLITICAL INTEREST CENTERS
IN VICE-PRESIDENCY.

Many Men Are Named—Roosevelt the Favorite with the Republican Leaders—McKinley's Renomination Will Be by Acclamation—Democrats Are Using Dewey as a Weapon.

Washington, D. C., April 16.—Budding and blooming vice presidential booms are more numerous than Easter blossoms in Washington today. The managers of both political parties are encouraging the development of these booms. The principal purpose is to awaken party interest without affecting the heads of the tickets or awakening too much interest in the platforms.

The Republicans are in no danger from a contest over the head of the ticket. There will be none. There is not another candidate than President McKinley in the country for the Republican nomination.

McKinley y Acclamation

McKinley will be nominated by acclamation. No Republican president since Grant has been nominated by acclamation, but McKinley will be. There is dissatisfaction in the party but not with the president. He is the one leader who has escaped criticism. The danger to Republican success is not in factional troubles but in lack of interest. With nothing to make a contest over, there is danger of lack of interest in the national convention.

A few months ago Chairman Hanna and other members of the national republican committee were planning for a great ratification meeting at Philadelphia, and a jubilee, at which McKinley would be renominated and his administration indorsed. There is not enough interest manifested in such a program. There is need of a contest of some kind to arouse interest. A contest of even preliminary discussion of the platform might be dangerous. The only contest that can do no harm and be generally beneficial is one over the second place on the ticket.

Cultivating Booms.

Senator Hanna and others are, therefore, devoting their time to cultivating booms for vice president. They have started these booms in all parts of the country. They have encouraged the new England republicans to propose candidates, and Massachusetts has Secretary Long, Senator Lodge and Governor Wolcott. There is no probability of a New England man's being nominated, but Secretary Long is a receptive candidate. He admits it. He would feel complimented at the nomination. So would Governor Wolcott, Senator Lodge declines to consider himself a candidate.

In New York the leaders have suggested Governor Roosevelt, Secretary Root and former Secretary of the interior Cornelius Bliss, while Lieutenant Governor Woodruff and ex-Governor Black have suggested themselves. Neither Bliss or Root considers himself a candidate, and Governor Roosevelt will not listen to the appeals of those who are urging him to go on the national ticket.

Democratic Plans for Dewey

The Democrats are cultivating a Vice Presidential boom for Admiral Dewey. They want Dewey on their ticket but not at the head of it. They want to keep him a factor in the campaign against the McKinley administration. With Dewey as a candidate for Vice President they can keep prominently before the country the disagreement between him and President McKinley.

The Democratic managers see in Dewey a weapon to use against the administration. He can still be an expansionist and oppose the President on the ground that the Porto Rico bill points to imperialism as the Republican policy, and there is said to be some secret history of the Philippine which has not come to the surface, and which will show that there was friction between the Admiral and the President at that time. The Admiral is at work on his statement, which will be made public some time this week.

IRISH WILL MEET IN BOSTON IN MAY

Plans for the Convention of the
Ancient Order of
Hibernians.

Boston, Mass., April 16.—The forthcoming national convention of the Ancient Order of Hibernians in this city promises to eclipse any ever held, for everything that an outlay of money can furnish has been arranged for to make it a great success. It is anticipated that there will be about 40,000 uniformed men in the big parade, many of whom are coming from the west and Canada. The arrangements in detail have been perfected for entertaining this vast number, as well as the thousands of New England members and their wives and relatives who will make Boston their Mecca on May 9 to 11.

Though the Massachusetts law prohibiting the carrying of arms will keep away some of the crack Hibernian regiments, it is expected that there will be about 40,000 men in line on May 9, the day of the national parade. In any case it will be the largest gathering of purely Irish Catholics ever witnessed in this or any other state.

DEWEY WAS NOT ENTITLED TO PAY

Reason Why the Admiral
Turned So Suddenly
Against McKinley.

HAS A CLAIM OF \$10,000

President Will Issue Statement
Which Will Show True
State of Affairs.

SPECIAL ACT IS PROPOSED

Washington, April 16.—The president, through the state department, will today or tomorrow send to the senate a report upon the expenses of the first Philippine civil commission, in compliance with the resolution of Mr. Pettigrew. It is understood that a feature of this report will be an explanation of the circumstances of Admiral Dewey's rejected claim for \$10,000 for special services as a member of the commission.

In this connection, it is said, the report will make absolutely clear the fact that there was no other course within the law than to reject the admiral's claim. It will make plain, too, the desire of the administration to grant the claim, had that been possible.

McKinley Favors Dewey's Claim

Further, it is intimated in administration circles that the president favors a special act of congress providing for the payment of the admiral's claim, and of an equal amount to General Otis, who also served on the commission without other payment than his regular army salary.

If this recommendation is not incorporated in the report, it will be owing to the president's natural delicacy, since the admiral has made a personal matter of it and has held the president responsible to the extent of entering the presidential race with a view to defeating Mr. McKinley's re-election.

Has a Hot, Quick Temper

That Admiral Dewey's candidacy for president grew directly out of his anger because he was denied the compensation given the civilian members of the commission is not doubted by those who have been in the admiral's confidence. It is known that his sudden resentment against the president, which so quickly changed him from an ardent admirer to a bitter enemy, was due to this cause. But here in Washington, where Admiral Dewey has long been known, he is not criticised as sharply as he may be in other parts of the country, for here there is a very general knowledge of the influence to which he has been subjected ever since he returned from the east. His character is known here, too. He has a hot, quick temper, and is noted for his bluntness of speech.

The prevailing sentiment in Washington concerning the admiral's idiosyncrasies is one of sorrow rather than anger. After all, he is the hero of Manila Bay, the man who changed the map of the world, and what would be intolerable in others may be forgiven in him.

CHURCHES FILLED WITH WORSHIPPERS

EASTER SUNDAY WAS A DAY OF JOY IN JANESVILLE.

Attended by Signs of Spring—The Sun Adds Its Glories at Noon—A Sabbath of Flowers and Song—Decorations and Music in the Various Churches

Even those who had not so much as a new hat, or a new neck tie had a chance to go to church yesterday morning while the skies threatened and the gay flurry of the more fortunate fellow creatures looked defiant and even unseasonable.

The weather of the forenoon was for the poor. If it kept any away from the church it must have been those who have been preening and pluming themselves all last week to flash their glories in the sunshine yesterday, but who stayed at home rather than risk their plumage. Not that the morning weather was bad, for it wasn't. But it was such an atmosphere and sky as one may tempt with rusty shoes and glossy coats and hats that have seen better days, without even risking one's garments or one's reputation. Therefore everybody who really wanted to went to church.

Sun Bursts Forth at Midday.

With midday came the sun in all the glory of a blue sky and "cotton clouds." Then fashion and finery had a chance. By 1 o'clock every street in town led to the parks and boulevards. Widows that have not opened since autumn gulped in the fresh air, every form and style of vehicle was dragged into service, the sidewalks began to team with well-dressed people and the voices of children filled the air.

Glories in the Churches.

But it was in the churches that the voice of triumph and peace spoke loud and clear. In the morning the whole city echoed the chimes of Easter bells. From dawn till noon the joyful voices of men and women and the peals of orchestra and organ glorified the victory of "Christ arisen." The air was heavy with the perfume of lilies, and roses. As usual the morning services were the most impressive, and the congregations which crowded to them were more numerous and more bravely arrayed than ever.

At the Catholic Churches.

At St. Mary's church, many worshippers, splendid in the raiment of spring, and moved by one spirit and one faith stood and made their prayers till the moving pictures seemed like a field of flowers. The high altar was dazzling with a hundred lights and the gorgeous vestments of the officiating priests, the crimson and purple sashes of the acolytes and the glistening Easter lilies in the sanctuary made a splendid spectacle. In all the mass there was but one sorrowful chord struck during which the congregation, kneeling with bowed heads and covered eyes listened to that part of the ceremony which in the music of the choir and the recital of the priest at the altar is commemorative of the final tragedy in the life of Jesus Christ.

At St. Patrick's church there was a large attendance and the music was very fine.

In Other Churches

Excellent musical programs and splendid floral decorations were a feature in most of the Protestant churches. The Congregational, Baptist, Methodist and Presbyterian churches all had appropriate offerings, which were enjoyed by thousands. The Episcopal church decorations and musical programs were very fine. All Souls (Unitarian) drew a large crowd. A children's program at the Congregational church last evening drew an audience that packed the church. Those in charge may feel proud of that affair.

LAND PRICES WILL ADVANCE

Good Prices Paid For Rock County Farm Products Has Its Effect.

The good prices paid for hogs, cattle, corn and hay in Rock county has commenced to show its effect on the prices of land.

"Of course," said a local real estate dealer, "good lands will always sell for good prices in this county, but in the last year or two many people thought they saw a tendency to decline in land prices. With corn over 40c, hogs all the way from \$5.30 to \$5.65 in Chicago, which will be good for \$5.10 or more right here at home, and cattle at the good prices that have prevailed for more than a year it will be impossible for lands to miss the influence of it all. The advance as a matter of course, is a result of the fact that the good things of these prosperous times are flowing toward the farmers in a steady stream."

WILL GUARD FUNDS OF BADGER STATE

Small Chance For Manipulation Under The New Wisconsin System of Accounting.

Madison, Wis., April 16—The expert accountants, G. D. Bartz and Stephen W. Gilman, appointed under the act of the last legislature to revise the state fiscal laws and devise plans for simplifying the state accounting methods, have made their report as provided by law. These plans have been adopted by the state officers and will be put into effect at the earliest practicable moment.

The new system contemplates that all expenditures for or on behalf of the state, including the university, agricultural college, experiment station, charitable, reformatory and penal institutions, the various departments and commissions and the normal schools, be allowed and recorded by the auditor before they can be paid. The auditor must stand as the final authority to determine whether or not the accounts which have been certified to him are correct, and see that payment is made from the proper fund, and refuse to pass expenditures that will overdraw the appropriation made therefor.

By the system proposed the expenses and receipts and the financial condition of each fund of every institution, board, office or commission may be given at the auditor's office at any time as readily as the cashier of a bank can give a depositor the condition of his account.

AMUSEMENT NOTES.

"The Village Postmaster," one of the best American plays ever written, and which has had a successful run of 150 nights at the 14th Street Theatre, New York, will come to the Myers Grand on the evening of Thursday, April 19.

Archie Boyd, and whom there is not on the stage today a better delineator of the New England character, is at the head of the company. The original cast that supported him during his New York engagement will also be seen here with the complete production. The management of the Myers Grand are particularly fortunate in having secured this excellent attraction.

In "Arizona," the play to be presented at The Myers Grand, Monday, April 23, Augustus Thomas has written an inflexibly true picture of life, not merely life at an army post or on a ranch in Arizona, but of life in a large sense, of people who live and breathe, anywhere and everywhere, the world over.

It is a beautifully constructed drama, and the dialogue is rich in wit and delicious humor. It was not necessary to write that the scene of the play was Arizona, it was Arizona on the stage, with its ranchmen, cowboys, cavalymen and "women folks." Frederick Remington designed the costumes, and the scenic effects are from the brushes of Walter Burridge and Charles H. Ritter.

Drying preparations simply develop dry catarrh; they dry up the secretions, which adhere to the membrane and decompose, causing a far more serious trouble than the ordinary form of catarrh. Avoid all drying inhalants, fumes, smokes and snuffs and use that which cleanses, soothes and heals. Ely's Cream Balm is such a remedy and will cure catarrh or cold in the head easily and pleasantly. THE ALASKAN CODE BILL

Is Next in Order of Business in the Senate.

CLARK CASE MAY COME UP.

Cruiser Detroit Ordered Out of Commission—Hard Fight on Oleomargarine—Exports Vastly Increased Over Any Previous Month.

Washington, April 16.—The senate will continue during the week to devote its attention to the Alaskan code bill, the Quay resolution and the bill providing for the temporary government of the Philippine Islands. There also will be more or less "sparring for place" on the part of the friends of the Nicaragua canal, chief among whom is Senator Morgan of Alabama. Possibly also Senators Frye and Hanna will make an effort to bring the subsidy shipping bill up, but the chances are that no move will be made in that direction until after some of the measures before the senate are disposed of. Senator Hoar has given notice of a speech on the Philippine question on Tuesday, and he is expected then to fully outline his views on the question of expansion. It is probable that a report will be made in the Clark case during the week. The report has been drafted in the rough by Senators Chandler and Turley, and will be laid before the committee on election as soon as completed. The week in the house will be largely taken up with the consideration of the naval appropriation bill, over which there promises to be a protracted struggle. Before the naval bill is taken up Chairman Marsh of the committee on militia will be recognized to move the passage, under suspension of the rules, of a bill to appropriate \$100,000 for the militia of the several states.

The navy department has ordered the United States cruiser Detroit to the Portsmouth navy yard to go out of commission. In addition to this orders have been prepared to put the Marblehead out of commission at Mare Island, and orders have been sent to Admiral Watson to send the gunboats Bennington and Concord, now at Manila, home to San Francisco, where they will also be put out of commission. The big battleships Indiana and Massachusetts are also to be sent to League Island about the first of the month to be laid up in ordinary, instead of being commissioned. This remarkable reduction of the number of ships in commission is ascribed at the navy department to the lack of a sufficient number of officers to furnish complements for the ships absolutely required for naval purposes. The navigation bureau is authority for the statement that there are fully 160 vacancies in the line of the navy, and the total number of officers is really less than it was fifteen years ago, notwithstanding the great increase in the number of ships.

A vigorous fight is being waged over the Groat oleomargarine bill, which has been pending in the committee on agriculture of the house for several weeks. The advocates of the measure, under the leadership of the National Dairy association, of which Charles Y. Knight of Chicago is secretary, have made a canvass of the house and have informally served notice that the contest will be carried into the next campaign. The friends of the bill claim to have defeated an organized effort to keep it in committee, and they have circulated broadcast throughout the country a number of postal cards, which are now pouring in upon congress. The cards bear a printed appeal for assistance to secure the passage of the bill, and each is signed by a constituent of the member to whom it is addressed.

The opponents of the bill are also being heard from by mail, the principal protest coming from labor organizations, which ask for the competition offered by oleomargarine in regulating the price of butter, and also because of the employment of labor in factories where it is made. A number of farmers also appear opposed to the bill. The members of the agricultural committee say that there is no intention to pigeonhole the bill, but that when it was taken under consideration a formal promise was made to hear all the interests that desired to appear, and that the committee has been exceedingly active in advancing these hearings, holding several meetings a week. The bill is becoming prominent in being one of the measures, aside from the Porto Rican bill, to call down upon the individual representatives a flood of personal communications from their constituents.

POSTAL CLERKS' CHAMPION.

Congressman Mann Favors Shorter Hours—Indorses Loud Bill.

Washington, April 16.—It is the belief of Congressman Mann of Chicago that the postal clerks at the Chicago postoffice and those at other first-class postoffices throughout the country are outrageously overworked and underpaid. He may be relied on to do what he can to help out Senator Gear in his effort to get a law passed at this session to limit the working day to eight hours—43 hours a week. "I see no reason," said Mr. Mann, "why the clerks in the employ of the department should not have the same protection against overwork as the carriers. A number of years ago the carriers formed an organization and secured the passage of an eight-hour law. The result was that all postmasters received instructions from the department that carriers should not be worked overtime. The law provided that overtime work should command

extra pay. The concern of the department was to keep within the appropriation and avoid the extra pay expense. Accordingly postmasters arranged a system of fines and punishments for overtime work; and now that work is done by the substitutes and special shifts. The difficulty about the whole matter is to hire enough clerks and at the same time live within the appropriation. At present the postoffice department is confronted at the end of each year with a deficit of about \$5,000,000. To employ enough clerks to do the work in the eight-hour day and to pay decent living salaries would leave a deficit of about \$20,000,000 a year. The people will not stand for it to have the department run on that kind of a basis. Now, the only way I know of to get what the clerks want and deserve is to pass the Loud bill. That measure would save the department \$20,000,000 a year—Loud says \$40,000,000. It is a meritorious measure."

The division of customs and insular affairs of the war department gave out for publication the statement that the receipts at the Havana customs house of the first three months of 1900 were \$3,126,414, against \$2,348,888 for the same period of 1899, an increase for the three months of 1900 of \$777,525. The February receipts alone were \$967,682, while those for March were \$1,006,269.

Interment will be at Rushville, Ill., May 1. George H. Scripps was 68 years old, was born in England and came to this country when 4 years old. George entered on his journalistic career twenty-five years ago with the Detroit Evening News. He helped to found the Cleveland Press. He soon after became interested in the Cincinnati Post, Louisville Post, St. Louis Chronicle, Kansas City World and Omaha News, and his journalistic possessions extended to the Pacific coast. With his brother, E. W., and Milton A. McRae, he comprised the Scripps-McRae league partnership.

The young man came to Chicago from his mother's home at Newton, Ia.

NOTHING IS BETTER.

Impossible to Manufacture a Better Remedy.

Wisconsin People Make Good Witnesses of the Success It Has Achieved.

There can be nothing better for backache, nervousness, sleeplessness and all ailments arising from kidney disorders than MORROW'S KID-NE-IDS. It is impossible to manufacture a better remedy. KID-NE-IDS contain the very best ingredients that are good for ailments arising from the kidneys. The vast number of people in this city who have testified to the merits of KID-NE-IDS is sufficient proof that none of our claims are false.

Mrs. T. S. Johnson, 831 Harrison street, Beloit, Wis., says: "I have been afflicted with kidney backache and other symptoms of disorder of kidneys for some time past. During the continuance of my troubles I have experimented with kidney pills and other kidney remedies but did not get any relief until I used MORROW'S KID-NE-IDS. In a very short time I was greatly relieved. I continued to take KID-NE-IDS and I am being relieved of all my former troubles very rapidly. I think KID-NE-IDS a splendid remedy for kidney troubles."

MORROW'S KID-NE-IDS are not pills but yellow tablets, and sell at fifty cents a box by all druggists and by The People's Drug Co.

CATARRH: FORERUNNER OF CONSUMPTION.

Few realize what a deep-seated, obstinate disease Catarrh is, regarding it as a simple inflammation of the nose and throat, little or no attention is given it. But, however insignificant it may seem at first, it is serious and far-reaching in its results. The foul secretions entering the circulation poison the entire system. The stomach, kidneys—in fact all the organs—feel the effect of this catarrhal poison, and when the lungs are reached its progress is rapid and destructive, and finally ends in consumption.

It frequently happens that the senses of hearing and smell are in part or entirely lost, the soft bones of the nose eaten into and destroyed, causing intense suffering and greatly disfiguring the face. While sprays, washes and salves may give temporary relief, no permanent benefit can be expected from such treatment.

CATARRH IS A CONSTITUTIONAL OR BLOOD DISEASE,

and far beyond the reach of mere local remedies. Those who rely upon them for a cure lose valuable time, meet with disappointment and allow the disease to take firmer hold. Only a real blood remedy can reach this troublesome and dangerous disease. S. S. S. cures Catarrh because it first cleanses and builds up the blood, purifies it, makes it rich and healthy, stimulates and puts new life into the sluggish worn-out organs, and thus relieves the system of all poisonous accumulations.

Mrs. Josephine Yohill, of Due West, S. C., writes: "I had Catarrh, which became so deep-seated that I was entirely deaf in one ear, and all inside of my nose, including part of the bone, sloughed off. When the disease had gone this far the physician gave me up as incurable. I determined to try S. S. S. as a last resort, and began to improve at once. It seemed to get at the seat of the disease, and after a few weeks' treatment I was entirely cured, and for more than seven years have had no sign of the disease."

S. S. S. is made of roots, herbs and barks of wonderful tonic and purifying properties. It is the only vegetable blood purifier known, and a certain and safe cure for all blood troubles. Send for our book on Blood and Skin Diseases, and at the same time write our physicians about your case. They will cheerfully give you any information or advice wanted. We make no charge for this.

The Best in the World.

We believe Chamberlain's Cough Remedy is the best in the world. A few weeks ago we suffered with a severe cold and a troublesome cough, and having read their advertisements in our own and other papers we purchased a bottle to see if it would effect us. It cured us before the bottle was more than half used. It is the best medicine out for colds and coughs.—The Herald, Andersonville, Ind. Battle with Fugitives.

El Paso, Texas, April 15.—A report from Lordsburg, N. Ayard, Johnson, and Stiles broke jail at Silver City a week ago and afterward ambushed and murdered Officer George Scarborough and wounded Officer Burchfield, who were in pursuit of them.

THE CHORUS OF PRAISE.

Brotherhood Paper Enthusiastic
The Brotherhood Independent is enthusiastic in its support of Senator Whitehead, and devotes two columns of space in the current issue to his candidacy.

Friends of Schools Enthusiastic

The Oconto County Reporter publishes a two-column portrait of Senator Whitehead, together with this sketch:

Mr. Whitehead, who has served his fellow citizens as state senator for the past four years, has been mentioned by the Republicans of Rock county as their favorite son and will have the support of the First Congressional District as a nucleus for his candidacy in the state convention. He was born in Illinois in 1852, received a common school, academic and collegiate education (graduating from Yale with the degree of A. B.), and studied law and was admitted to the bar in Chicago in 1883. He settled in Janesville in 1883 and has since been prominent in his profession and in public affairs. He is by many regarded as having been the leading member of the state senate during his service in that body, and was actively identified with the many important and beneficent measures enacted by the legislature of 1897-99. Friends of the common schools familiar with his public career are especially enthusiastic for his nomination.

Has an Envyable Reputation

The Rhinelander New North, which is supporting Hon. Ira Bradford for governor, makes this editorial mention of Senator John M. Whitehead's candidacy:

The First congressional district has an aspirant for gubernatorial honors in the person of Senator John M. Whitehead. He will go into the convention with the solid support of his district, 112 delegates strong. The senator won an enviable record as a member of the upper branch of the state legislature. The Janesville Gazette announces his candidacy in quite a conspicuous manner.

Will Have District's Support

The Lake Geneva Herald thinks Senator Whitehead will have the support of the district.

The republicans of Rock county in convention assembled passed resolutions endorsing Senator John M. Whitehead's candidacy for the governorship. He will no doubt be the first district's candidate.

SAY BLACK IS WHITE.

A good many democrats are changing their skins these days. The fact that the United States—"without waiting for the aid or consent of any other nation on earth," and without consulting the democratic party—has come into possession of some exceedingly valuable island possessions, causes them to weep, wail and gnash their teeth. They do not howl because we have the islands—they admit their value, but because "the republicans did it." They want the islands to be treated as equals but many of them insist that the negroes in the United States are treated too leniently—they ask more for the inhabitants of our new possessions than they are willing to give to the colored Americans of the south.

It makes a big difference whose ox is gored. Senator Morgan of Alabama, in a speech on the floor of the senate a month ago, said:

"In physical, mental, social, inventive, religious, and ruling power the African race holds the lowest place, as it has since the world has had a history, and it is no idle boast that the white man holds the highest place. To force this lowest stratum into position of political equality with the highest is only to clog the progress of all mankind in its march, ever strenuous and in proper order, toward the highest places of human aspiration."

Two and two still make four, and the American people can distinguish between statesmanship and mere political hubbub, but the articles of the anti-ies are quite laughable.

Senator Whitehead's boom appears to gather force each day and the newspapers continue to praise him. The character of these endorsements and the wide range of territory the papers cover is apparent to all, and the showing made is certainly flattering.

Your typical American is "a hustler," as is shown by the fact that sixty-two

new silk mills were started in the United States last year. The raw material is all imported, but Yankee ingenuity surmounts that obstacle, and makes the business pay.

The United States is now exporting 60 per cent. more goods than they did two years ago—a whole story in a single sentence.

War is also rather expensive. British Government expenditure is running now \$7,000,000 a week beyond revenue.

A Queer Superstition.

The inhabitants of the Andaman Islands, not far from India, have some strange superstitions and traditions. It is their belief that the first human being fell into the water and was drowned, being transmuted thereby into a whale. The first man's wife and grandchildren went hunting for him in a small boat, but lo and behold, the whale came along and tipped the boat over. The wife was turned into a crab and the little ones became lizards. All fish and many birds they believe to be ancestors who have been changed in form. A species of fish which has a poisonous prong on its body, they say, is the form into which murderers are transmuted.

A Royal Architect and Gardener.

Kings are generally supposed to owe their distinction to their exalted position. It is said of King Leopold of Belgium, however, that if he were not king of the Belgians, he would be king among architects or among landscape gardeners. His taste in these directions is probably more marked than his taste for ruling, for it is well known that he detests the ceremonial of royalty, and is never so happy as when inspecting and correcting designs for a new building, or planning the laying out of an estate. Brussels has much cause to be grateful to him in this respect, since it is to the keenness of his eye for the beautiful in landscape that she owes many of her open spaces, from which delightful views of the surrounding country can be obtained.

Lover's Leap.

"Lover's Leap" is supposed to be another name for Sappho's Leap, the name given to a white cliff called Cape Ducato, at the southern extremity of Santa Maura, one of the Ionian Islands. Its ancient name was Leucadia. Sappho, the poetess, is reported to have thrown herself into the sea from this height, and the story goes that lovers made the leap to free themselves from the pangs of love. It is about 200 feet in height.

Upset a Tombstone.

Thomas Kavanagh, of the contracting firm of Kavanagh & Sharkey, of New York, was hurt in a peculiar manner. He was attending a funeral in Calvary cemetery and leaned against a tombstone standing at the head of a grave. Back of the stone was a steep terrace. A short distance away men were blasting. A heavy blast was set off and the shock threw the tombstone from its base and it and Mr. Kavanagh rolled down the embankment. Mr. Kavanagh was considerably bruised.

POOR PRINTING WILL
do much toward injuring a man's business. A poorly displayed piece of dirty ink splattered onto a piece of paper and called

BOLD THIEVES ROB WINSLOW'S STORE

TOOK VALUABLE OLD COINS AND MUCH CASH.

Total Loss Will Foot Up About \$235—Worked with the Aid of a Near-by Electric Light—Must Have Been in Store an Hour—Local Talent Suspected—Arrests May Soon Follow

Thieves, either Saturday night or Sunday morning robbed F. S. Winslow's grocery store corner of Dodge and River streets. For their trouble they received about \$32 in cash, old coins valued to \$200 and a box of cigars. The police are working on different clues and arrests may soon follow.

The robbery was a bold one and for fully an hour the thieves worked in the store under the glare of an electric light not fifty feet away. Parties most familiar with the store committed and planned the robbery. They gained an entrance by climbing on the roof of the building, which in a story brick structure but recently built.

Through a roof trap door they dropped to the floor which is at present utilized by Mr. Winslow as a store room for cloaks and being situated directly over the grocery store.

The trap door was not fastened from within and this the thieves no doubt knew. After the first robber entered the building he pushed two nearby saw-horses beneath the trap door so his companions or accomplices would not have so far to drop. Then the thieves made their way to the grocery store below. On a post in the front part of the store hung a picture frame containing a set of old silver coins and paper money valued at \$200. This frame contained a glass and altogether weighed about eighty pounds.

About this post on all sides were piled can goods and boxes so as to make it impossible to get at the picture. This post is about ten feet from the front windows. The thieves then set to work and removed several dozen cans of fruit and carefully piled them several feet away. Then they went to the rear of the store and got an empty barrel on which to stand in order to take down the frame of coins. The barrel was too short and to the rear of the store they returned it.

They then brought from the rear of the store a fourteen foot ladder. Then they cut the wire that held the frame and took it to the floor above where they placed a garment on the glass and struck it with a hatchet. This method was used to dander the noise. With a screw driver they removed the coins which were securely tacked. They left only one silver piece and a half dozen bills. This task of removing the coins must have taken some little time.

Before going up stairs or afterwards the thieves visited the cash register. This they easily opened and took about \$2 in small change. To the money desk they went and at first tried to pry open the money drawer. During this operation they found the key to the drawer which was kept in the desk in an unlocked drawer. Then they unlocked the drawer securing \$30 in cash. They left via the rear door on the ground floor after removing the bar.

This door they left open. Sunday morning about 7 o'clock William Minnick, residing on South River street, discovered the door open. Word was then telephoned to Mr. Winslow and Chief Hogan and Sheriff Appleby were soon on the scene.

REPORT OF BYER DEFEAT.

English Capture and Imprison
Several Men.

LOSS OF AN ENGLISH PATROL.

Imperial Troops Busy in Preventing a
Break in Communications—Boers in
Free State Continue to Force Fighting
—President Kruger Visits Boer Camps.London, April 16.—The Cape Town
correspondent of the Daily Telegraph,
telegraphing Sunday, says:"An unconfirmed report is in cir-
culation here that Gen. Brabant has in-
flicted a crushing defeat upon the
Boers at Wepener, capturing and tak-
ing prisoners."A special from Reddersburg, dated
April 15, says:"Col. Dalgely wired yesterday: 'All
well. Enemy apparently slackening
attack.'""Gen. Chermiside's division is en-
camped seventeen miles east of the
railway. Boers are supposed to be in
the vicinity, but an attack by them is
improbable."A special dispatch from Bloemfont-
tein, dated April 14, says: "A patrol
of Royal Irish, with whom was Lord
Rosslyn, has been captured. Lord
Rosslyn has been sent to Kroonstad."Another victory for the Boers, the
importance of which is not known, is
reported in a special dispatch from
Bloemfontein, which announces the
loss of an entire British patrol. Lord
Rosslyn, who was with the imperial
forces, was among the prisoners and
he has been sent to the Boers' main
position at Kroonstad. As to how
many men were in the captured party
the brief dispatch is silent. This is
taken as a bad sign, for unless the loss
was serious the censor would un-
doubtedly pass the figures minimizing
the bad news. It is supposed that Lord
Rosslyn, who was a newspaper corre-
spondent, was attached to the detach-
ment, the members of which were Royal
Irish rifles. Except for reports from
the Boer camps the night has brought
little news of the situation at the
front. These dispatches would indi-
cate that the Dutch forces operating
in the southern part of the Orange Free
State are holding their own, despite
statements that their recent moves
were unimportant. The situation in its
chief points is apparently unchanged.The Bloemfontein correspondent of
the Daily News, telegraphing Sunday,
says:"President Kruger attended a confer-
ence of the Boer commandants at
Brandfort on Thursday. It is be-
lieved that a decision was reached to
withdraw the Transvaal forces to the
north of Vet river, preparatory to a
general retirement across the Vaal
river if hard pressed, leaving the Free
Staters to their own resources."Aliwal North, April 15.—There was
spasmodic cannonading at Wepener
yesterday, which continued until 10
o'clock at night. A few distant shots
were heard today.The following are the official figures
on the casualties in the Ladysmith
garrison during the four months' siege:Killed in action, 472; deaths
from disease, 510; dying from disease
140; wounded in action, 629; total
losses, 1,751; total admitted to hospital,
10,688; garrison at opening of siege,
13,496; garrison at end of siege, 10,161.

Dying From Nose Bug's Bite.

Niles, Mich., April 16.—Several days
ago Joseph Elder, a Pokagon citizen,
made a trip to Kalamazoo and while in
that city a peculiar insect stung him
on the end of the nose. After he re-
turned home his nose began to swell,
and the poison caused his face and
neck to swell in a frightful manner.
Elder is suffering horrible agony and
his case has been pronounced hopeless
by medical men. A delegation of Michi-
gan doctors from the University of Michi-
gan visited Elder to investigate his
case. It is believed that the insect
which stung him was the celebrated
New Mexico nose bug.

Senator M. A. Hanna is ill.

Cincinnati, Ohio, April 16.—Word
has been received here that Senator M.
A. Hanna is ill with the grip at Old
Point Comfort and that he may not be
able to attend the Ohio republican
state convention at Columbus next
week. It is reported that President
McKinley and other republican lead-
ers will be at Old Point Comfort this
week for an informal conference and
for recreation.

Klondike Creeks Opening Up.

Victoria, B. C., April 16.—The
steamer Amur reached here from
Skagway and brings many passengers
from Dawson, who report that warm
weather is beginning to break up the
trails. Water was running on several
Klondike creeks on March 25, and al-
ready miners have begun to wash up
their dumps.

Killed by Exploding Mine.

Logansport, Ind., April 16.—Too
much pressure and a piece of defective
gaspipe in the mains of the Chicago
Pipe Line company at a point four
miles southeast of here were the causes
of an explosion in which Michael Eli-
son, Jr., was killed and five other men
received injuries that may prove fatal
to some of them.

MILLIONAIRE WRIGHT KILLED.

Mysterious Death of Prominent Rubber Tire Manufacturer.

Chicago, April 16.—Rufus Wright, the millionaire treasurer and partner in the bicycle-tire house of Morgan & Wright, who was shot Saturday afternoon while in a room in the Leland hotel with Mrs. Louisa Lottridge, died Sunday morning at 5:30 o'clock. Mrs. Lottridge made a statement to the police, in which she said there was a struggle for the possession of the revolver, during which she was standing and Mr. Wright sitting on a couch, and that while he was trying to take the weapon from her it exploded. Mrs. Lottridge denied that Mr. Wright came to see her in the interest of any friend, a theory offered by Mr. Wright's associates. She said they had been acquainted for a number of years, and that he went to her room at her request to talk over matters in which each was interested. She said they drank together in the room and that both were in good spirits.

Mr. Wright was 68 years of age, and was born near Cleveland. He began his career painting barns and fences, and from this he gradually rose to become an artist of marked ability. His chosen field was that of portrait painting, but he did several genteel pieces. One of these in particular attracted much attention. It was called "The Lone Hand," and was copied extensively in New York. Among his conspicuous portraits were pictures of President Lincoln, Secretary Seward and other members of President Lincoln's cabinet. Mr. Wright was at this time living in Washington. Later he removed to Akron, Ohio, and there began his business career. He remained there seven years and then came to Chicago in 1882. He soon became associated with F. W. Morgan, who had established a small shop for the manufacture of rubber goods in a basement at Lake and May streets. There the pneumatic tire was invented, and in 1885 the business began to expand. As a result of the phenomenal growth of the firm Mr. Wright's wealth is estimated now at \$2,000,000. Mr. Wright will be buried at Akron, Ohio, on Wednesday morning. A special train will take the body and funeral party to Akron, leaving Chicago Tuesday evening. Heads of departments in the Morgan & Wright company and former associates of Mr. Wright will be the pallbearers. The Rev. James Villa Blake of Evanston, Ill., will conduct the services. Mrs. Lottridge keeps a hotel at Paw Paw Lake, Mich.

Thieves Rob a Church Choir.
New York, April 16.—Easter day proved to be a sad one for the members of the choir of Christ church, Brooklyn. While the choir was singing joyful carols for one of the largest and richest congregations in the city thieves entered the church and carried away property worth several thousands of dollars. No trace of the thieves has been obtained. The women singers were the largest losers, for in robbing for the morning service all jewelry and finery were laid aside. The plunder consisted of coats, money, pocket books, diamond pins and one \$300 sealskin saccage.

Chase to Change His Name.
Cincinnati, Ohio, April 16.—Moses Fowler Chase, the young millionaire of Lafayette, Ind., sails for Europe next Wednesday, and his attorneys during his absence will petition the court to change his name to Moses Fowler, the name of his grandfather, whose estate he inherited after the death of his mother. Chase's father recently tried to have him declared insane. Chase is living with his uncle and aunt, Mr. and Mrs. Charles Duhme of Cincinnati, whom he accompanies abroad, and against whom Chase's father also brought suit in the contest over the estate.

Phonetic in Church.
Chicago, April 16.—"I am the resurrection and the life!" Arms flung high in air, voice strident with the fervor of fanaticism, a gray-bearded stranger invaded Trinity Episcopal church, Michigan avenue and Twenty-sixth street, during the second communion service Sunday morning and started the quiet of the celebration with his chant. Two men, coming quietly behind him, caught the stranger by the shoulders, faced him about quickly and pushed him toward the street door. He offered slight resistance.

W. A. Clark to Contest Again.
New York, April 16.—W. A. Clark of Montana and New York and former Gov. Hauser of Montana held a conference here Sunday relative to Mr. Clark's United States senate aspirations. Mr. Clark referred all questions to Mr. Hauser, who in turn said Mr. Clark "would fight to the last ditch" to regain his seat in the senate.

Presbyterian Church Dedicated.
Jacksonville, Ill., April 16.—The new Westminster Presbyterian church was dedicated in the presence of a large congregation. The Rev. Dr. Herrick Johnson of Chicago delivered the sermon. The building is of Bedford stone and cost over \$20,000.

DEATH AND RUIN BY STORM.

Two Persons Reported Killed By Kansas Tornado.

Wichita, Kan., April 16.—A storm approaching a tornado in proportions is reported from near Winfield, between here and Newton, and in the vicinity west of Clearwater. Two deaths are reported, and four persons were hurt by overturned houses. Wires are down, and names and particulars are unobtainable. At Putnam it is said several houses were blown down and four persons seriously injured. Word was brought by passengers on the south-bound Santa Fe passenger train that two persons were killed, but it is impossible to confirm this report. West of Clearwater, in the country northeast of Adams, on the Englewood branch of the Santa Fe railroad, it is reported that a strip of country five miles long was swept by a storm at 6 o'clock Sunday evening and several farmhouses, barns and other buildings were blown down. No casualties are reported from there. Over three inches of rain fell at Newton, Kan., flooding the northeast part of the city. A small cyclone accompanying the storm took a southeasterly course a mile and a half southeast of here. It jumped a farmhouse and took the roof off a barn. At a small settlement several miles west of Fremont, in Sumner county, it is said all of the houses were wrecked, with loss of life.

Denver, Colo., April 16.—A mixture of rain and snow has been falling incessantly throughout Colorado for twenty-four hours. In the Clear creek district the snow is three feet deep. The Cache la Poudre, St. Vrain and other rivers are badly swollen, and damage from floods is feared.

Test for Featherweight Championship.
Chicago, April 16.—Terry McGovern, the unbeaten featherweight boxing champion, has reached this city and is at a quiet place on the south side, resting for his fight Tuesday night at Tattersall's. Then he will be opposed by Tommy White, the best 126-pound boxer in America, and one of the gamiest men who ever drew on a padded glove. The limit of the contest will be six rounds and the articles of agreement call for the weights of the men to be inside 130 pounds. McGovern ranks today as John L. Sullivan did in the best days of that widely known fighter. The followers of pugilism have come to look for any sort of an extraordinary performance on the part of the Brooklyn lad.

Mary Field French Dead.
Amherst, Mass., April 16.—Miss Mary Field French, aged 75, a cousin of Eugene Field, and for a number of years his guardian, died suddenly at her home. She had the care of Eugene Field from his seventh to his eighteenth year. In after years Mr. Field was accustomed to visit the town frequently to see his cousin, of whom he was fond. She leaves a half brother, S. Minot Jones of Washington, D. C. Her cousin, Roswell M. Field of Chicago, a brother of Eugene, will attend her funeral.

Fourth Accused of Embezzling \$10,300.
Boston, April 15.—Herbert F. Milligan, the trusted bookkeeper of the Union Loan and Trust company, has been arrested charged with embezzling \$10,300 of the institution's funds. It is understood he has confessed.

Spring Fever

During the winter, extra work is thrown upon the various organs of the body. Spring makes this manifest. The appetite becomes poor, sleep restless, bowels constipated; sometimes there is dyspepsia, liver or kidney troubles. Life seems not worth living. This is the time to take Hostetter's Stomach Bitters. It is better than any other spring tonic in the world. It refreshes, strengthens, rebuilds. A private Revenue Stamp covers the neck of the bottle.

Rich Beyond Question.

We have something of interest for you. Our new vehicles are creating a sensation, not only from the fact that they are the newest in design and style, but the prices are surprisingly low.

C. H. BELDING,
North River Street. Opposite Fire Station.

Carriages can be bought at prices which appear surprisingly low, but those who will take the trouble to examine the material and the finish will find that there is a vast difference between those vehicles and these we offer. The material throughout—wood, iron, leather, paint and rubber, is the best. There are no defects covered by a liberal use of varnish.

That sounds extravagant, but seeing is believing. All we ask is your presence here to prove entirely our assertions.

When on the subject of Carriages or Rigs of any kind

Hixson is Ready; Are You?

That new map of Rock County which has been in the course of construction the past three months, is about ready. A few more days will complete the best Map ever put out for old Rock. A great many people have given their orders and there are many more who should have the publication. Perhaps you are one of them.

If you have any business in Rock County at all you are certainly one of those who should have a map.

The Price, \$6.00,

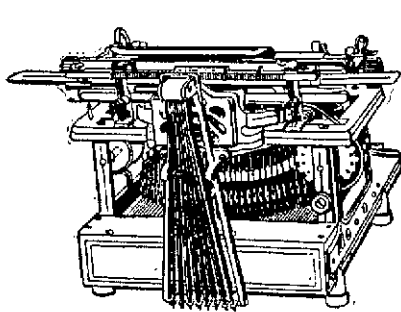

Is a small matter in comparison with the great amount of good these maps will be for reference.

Your order will be cared for if you will send it to The Gazette office. Don't put it off longer if you would make sure of securing one.

A Smokeless Blue Flame

This invention embodies in a large measure the principle of the Evaporating Gasoline Burner. The oil dripping into a tube leading to an open ring at the bottom of the burner cylinder, when ignited burns up between the two perforated chimneys, becoming so impregnated with air as to produce a Smokeless Blue Flame similar to that from a gasoline burner. No complicated mechanism is involved in its construction; it is as easily operated

and as easily comprehended as an ordinary lamp. A child five years old can use it—no danger; cannot explode.
